Technical Club Report

Department	CSE	Club Name	CODE CRUSHERS		
Academic Year	2025-2026	Semester	Even		
Title of the Program	DEBUGGING	Date & Time	9.8.2025 & 1.30-4.00		
		Venue	CSE LAB II - VENUS BLOCK		
		Number of Participants	150		
Resource Person Details	Dr. V. SHARMILA HOD/CSE				
Summary of the Program The Debugging Contest was conducted to enhance students' problem-solving and error-finding skills in programming. Participants were given code snippets containing logical, syntactical, and runtime errors. They had to identify and correct these errors within the allotted time. The contest tested analytical ability, coding knowledge, debugging efficiency, and accuracy. Students actively participated and showcased their programming talent, with top performers solving the challenges in minimal time. The event provided a great platform for improving coding confidence, critical thinking skills while preparing students for real-world problem-solving in software development.					
Outcome of the Program	Logical Thinking and Error -Identification				
Mapping of domain(s)	Artificial Intelligence and Natural Language Processing				
Status of the product development in (%)	20%				
Targeted Competition	Smart India Hackthons
